Terri & Ken,

Relevant to the topic of alternative OB/OD treatment technologies, here is some information from the Camp Minden project:

EPA Superfund has a full website at: <https://www.epa.gov/la/camp-minden>

There are a number of relevant documents within the website here: <https://www.epa.gov/la/camp-minden-amended-administrative-record-documents>

I've attached a few of these files. There are also some documents with vendors' details on their treatment technologies in the admin record.

Chuck Hendrickson

- Call-in #: 

conference call number and code / Ex. 6
- Conferenc

## Agenda

### HQ Update- Ken Shuster

#### John Scott- NJDEP

Permitting of the storage, treatment and transfer of DOT Division 5, Class 5.2 Types "C" through "F" organic peroxides. Specifically, how have other States handled these potential explosive/reactive materials and if any State has a sample permit for their management.

#### Contractor Tasks-HQ-Ken Shuster and Jeff Gaines w/ EMS contractor personnel

1) Alternatives to OB/OD- Reports from various installations

## 2) Contamination and Cost to cleanup contamination from OB/OD and Alternate Technologies

**Terri Crosby-Vega**
